JNUTA Statement on Missing Student

JNUTA expresses its deep concern on the recent incidents of the violence in Mahi-Mandavi Hostel and the fact that one student is missing for more than 48 hours. JNUTA also notes the failure of university Administration in handling of this matter and their inability to carry out their responsibility to safeguard the interest of the university and its members. Symptomatic of this is the singling out the missing student as an accused in its Press Release.

JNUTA demands that the administration take pro-active measures to first ensure the safe return of the student by engaging all agencies to locate the missing student and guarantee his safety. Further, a fair enquiry is demanded to identify those guilty of violence, as any violence has no space in the University.
