OFFICE OF THE DIRECTOR (ADMISSIONS)

PRESS RELEASE

15th April, 2019

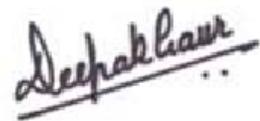

JNU announces the extension of the deadline for JNUEE & CEEB 2019-20 application registration and submission from April 15, 2019 to April 18, 2019. The deadline for application fee payment has also been extended from April 16, 2019 to April 19, 2019.

As of today, April 15, 2019, 87,950 students have submitted their application forms and paid the fees for JNUEE 2019-20. This is a record number of applications received for JNUEE as compared to previous years and still more are expected to apply as the deadline has been extended. The total number of candidates who applied for JNUEE held for the Academic Years 2017 & 2018 were 51,818 and 69,605 respectively.

Considering that a candidate is allowed to apply for up to 3 programs of study in a single application, the total number of candidates appearing for the entrance test amounts to 1,65,000. This clearly indicates that the student applicant fraternity has overwhelmingly accepted the proposition of conducting the Computer Based Test.

JNU has partnered with National Testing Agency (NTA) for conducting the Computer Based Entrance Test. The National Testing Agency is a specialized Agency created by the MHRD, Govt. of India and has great expertise in conducting entrance examinations at the National Level through their excellent mechanisms and very high standards.

The NTA has been entrusted with the application registration process and conducting all examinations. The responsibility of post examination result processing and result announcement as well as JRF application registration would be conducted by JNU itself. The vendor for the post exam processing and JRF application registration is a company that has been working every year since 2015 under the supervision of the JNU Admission Branch. As during previous years, the JNU Admission Branch has got approval from the Executive Council for awarding this year's contract also to the same vendor. All procedures for conducting the 2019-20 JNU entrance examinations are in order and running smoothly.
